

Dear Suppliers,

We kindly remind you that all drivers who deliver scrap to our company must have proper clothing:

- long sleeved shirt
- trousers (no shorts)
- solid shoes
- helmet with a chin strap
- protective goggles
- protective gloves

Lack of proper clothing will delay the unloading. You, as a supplier, will be charged for the disposable clothing set we will hand in to the driver (even if you have hired the truck company and the driver is just a subcontractor).

You may find more information in “Information for Suppliers” on our website in TO DOWNLOAD tab.

Thank you for your cooperation and sharing this information with the transport companies you cooperate with.
